Technology
Systems

Hamburg, 28th of February 2011

Agenda

- Motivation and Research Objectives
- My Approach in Detail
- Case Studies and Evaluation
- Summary and Outlook

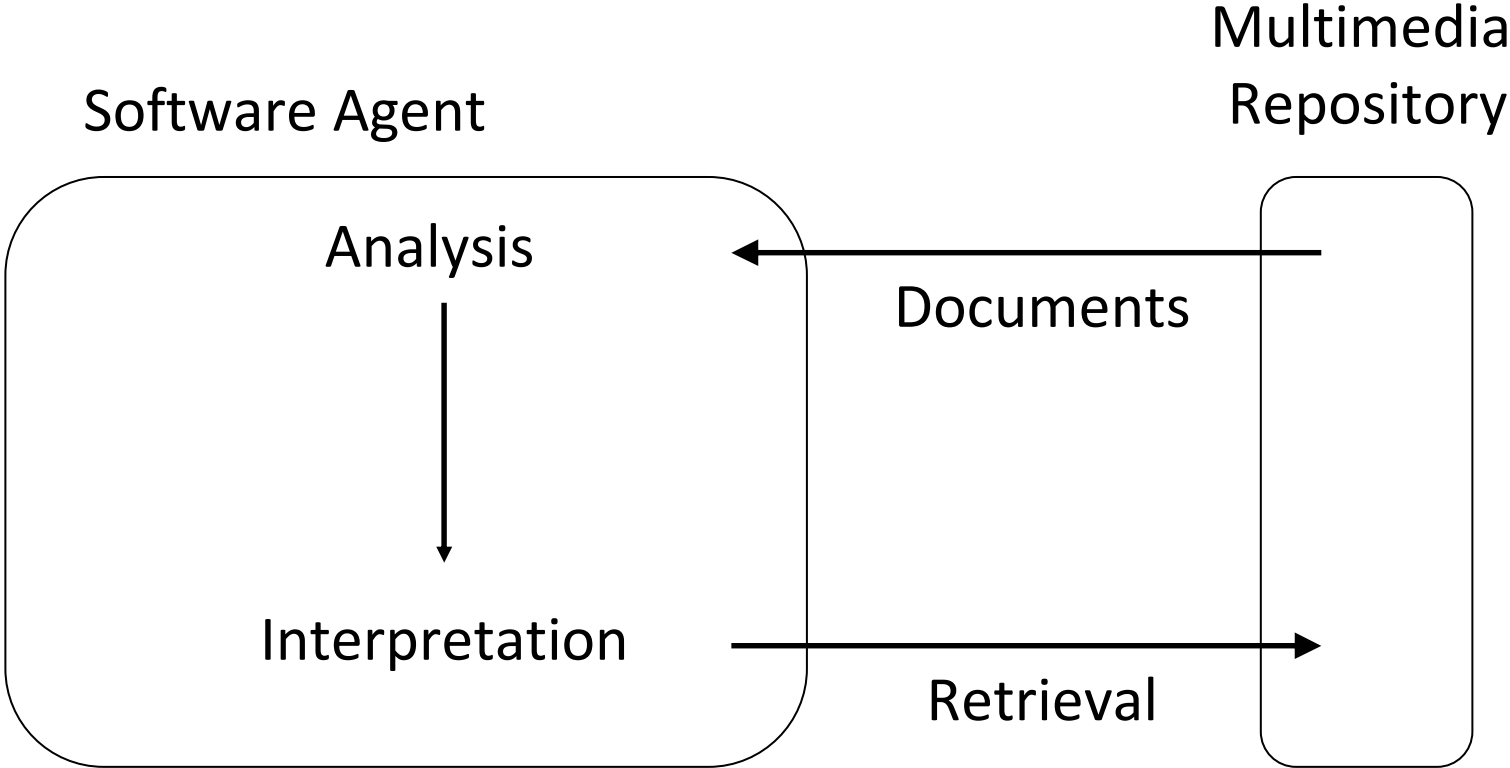

Cognitive Robotics

Multimedia Interpretation

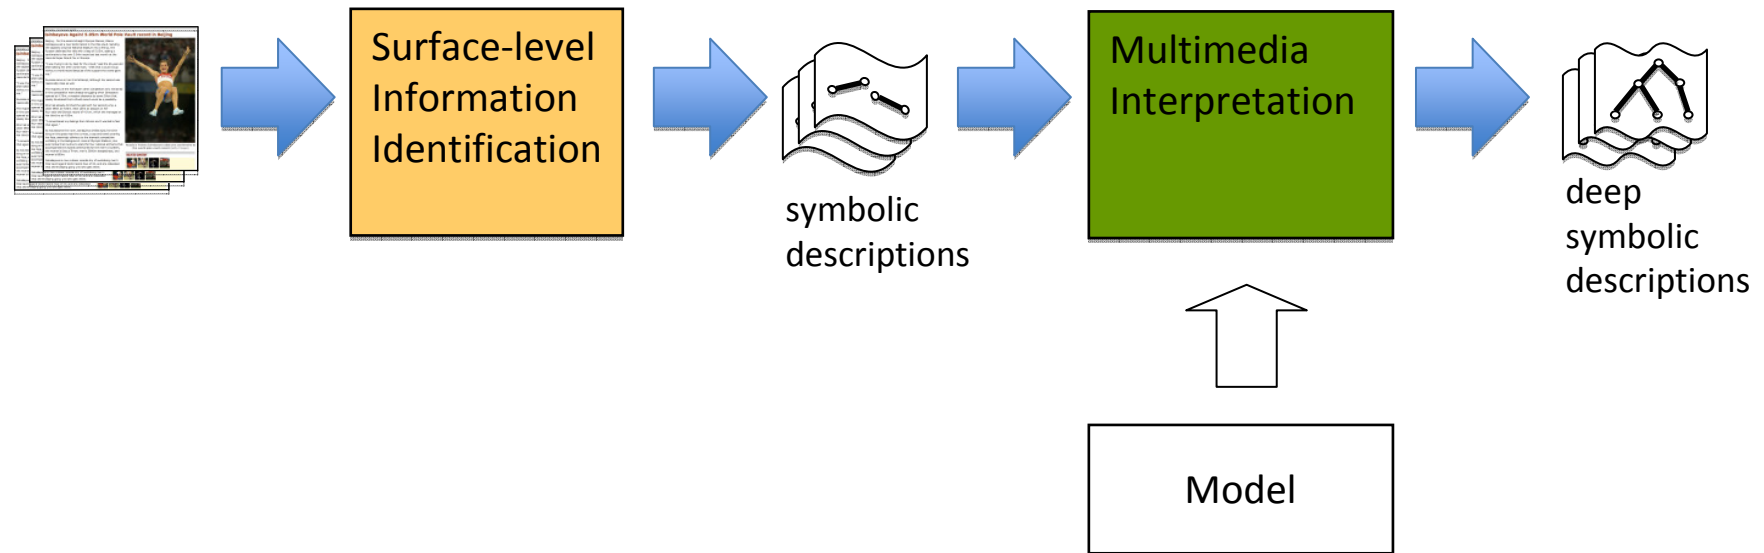

Multimedia Interpretation

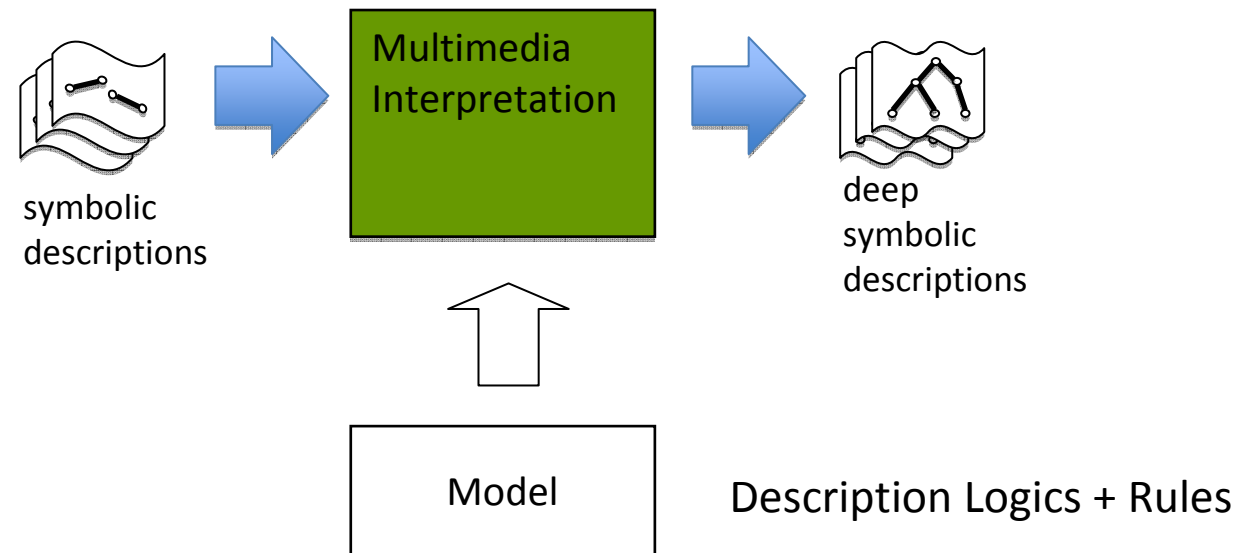

Person, Pole
Pole Vault Trial

Processing Pipeline

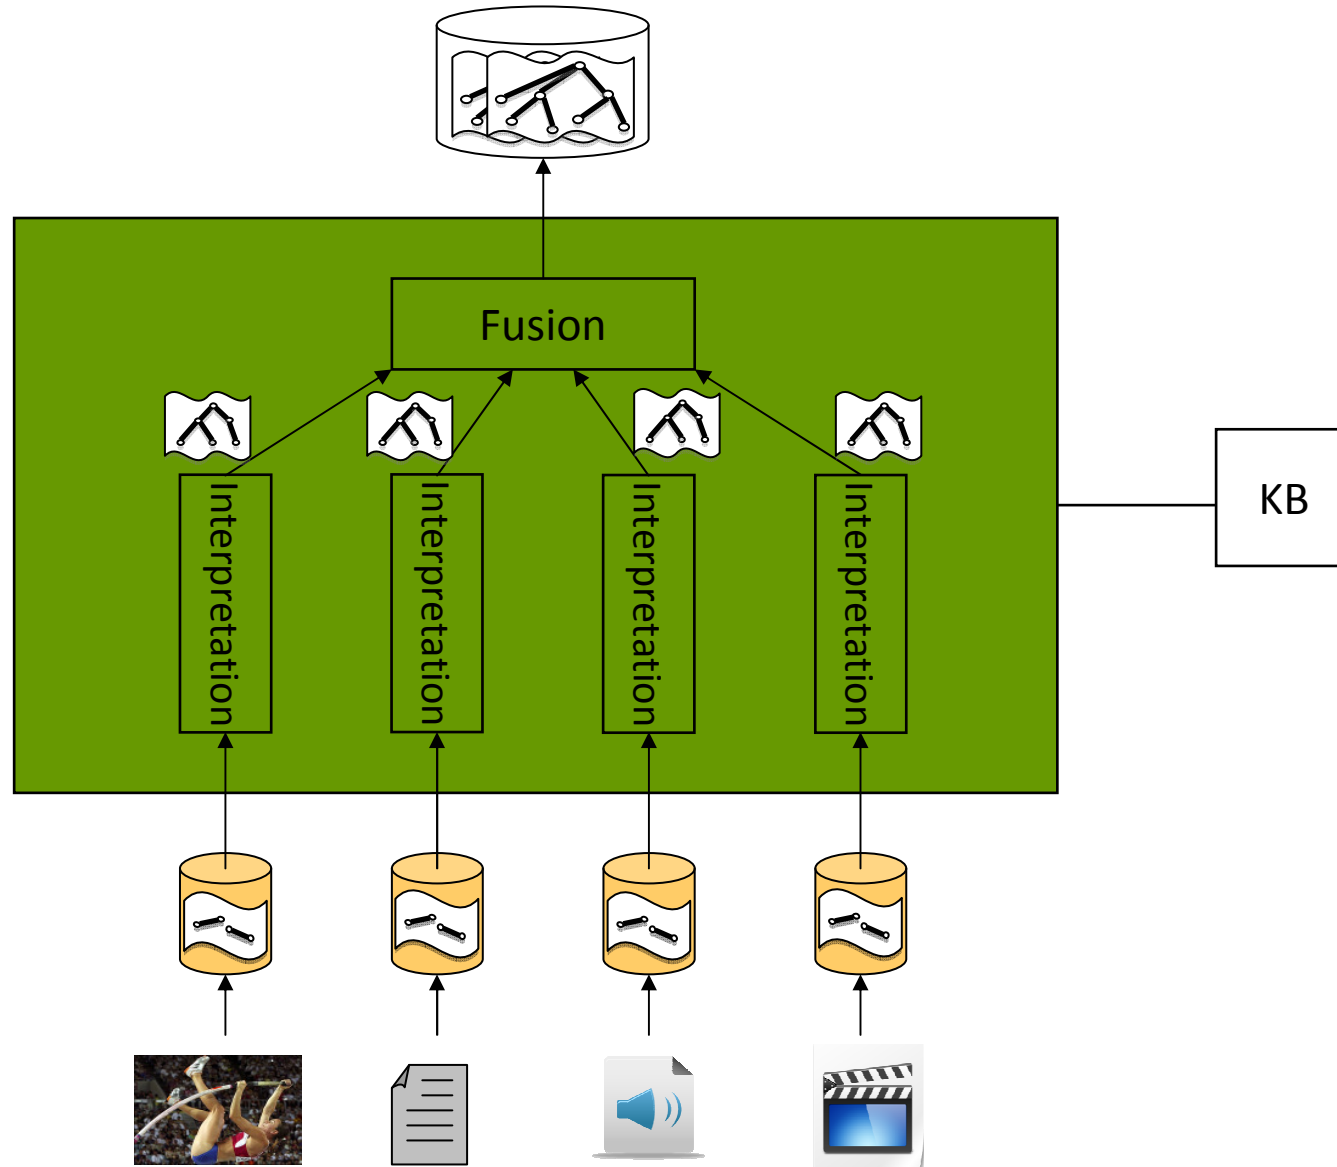

Thesis

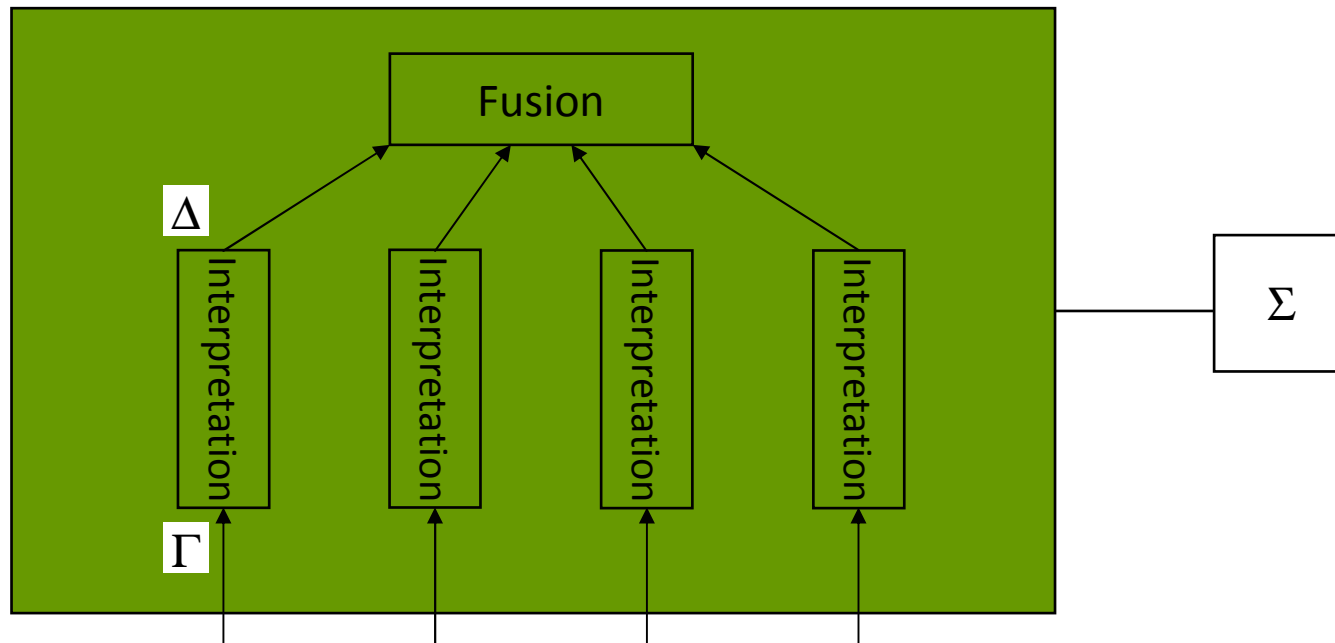

- Develop a logic-based approach
- Implement & Evaluate

Multimedia Interpretation In Detail

Interpretation through abduction

Abduction Reason from observations (evidence)
to explanations $\Sigma \cup \Delta \models \gamma$

Abduction: Key problems -> Solutions

- Definition of the space of abducibles
 - > Rules
- Limiting the number of explanations
 - > Preference relation

An Interpretation Example

Yelena Isinbayeva of Russia on her way to victory

(Getty Images)

Interpretation Example Continued

Yelena Isinbayeva of Russia on her way to victory (Getty Images)

Personal Contributions

Abduction Definition of
the preference relation & the strategy parameter

Interpretation Development & Implementation

Fusion Development & Implementation

Evaluation

Case Studies and Evaluation

Scenario Text analysis results (ABoxes) of 500 webpages with athletics news

Runtime Performance and Scalability

Time spent → runtime performance

Increase in analysis ABox size → scalability

Case Studies and Evaluation

x = number of fiat assertions
y = time spent in minutes

x = number of all assertions
y = time spent in minutes

Case Studies and Evaluation

Scenario 100 webpages with athletics news

Quality of Interpretation Results

Compare human-annotated versus automatically generated ABoxes (precision and recall)

Results

High-quality rich semantics descriptions

Summary

- For the MMI Problem: Solution proposed
- Several alternatives: Search space combinatorial
- Proposed solution implemented: Useful results
- Intelligent CMS (PhD Thesis Espinosa 2011)
- CASAM project
- Publications

Publications (Peer-reviewed)

Book Chapters

- S. Espinosa, A. Kaya, R. Möller. Logical Formalization of Multimedia Interpretation. *In G. Paliouras, C. D. Spyropoulos, G. Tsatsaronis, editors, Knowledge-Driven Multimedia Information Extraction and Ontology Evolution, Springer LNCS Series, To appear in 2010*

Journal Articles

- S. Castano, S. Espinosa, A. Ferrara, V. Karkaletsis, A. Kaya, R. Möller, S. Montanelli, G. Petasis and M. Wessel. Multimedia Interpretation for Dynamic Ontology Evolution. *Journal of Logic and Computation, Oxford University Press, Advance Access published on September 30, 2008. doi:10.1093/logcom/exn049*

Conference Papers

- S. Espinosa, A. Kaya and R. Möller. On Ontology Based Abduction for Text Interpretation. *In Proceedings of 9th International Conference on Intelligent Text Processing and Computational Linguistics (CICLing-2008)*, number 4919 in Lecture Notes in Computer Science, pages 194-2005, Haifa, Israel, February 2008.

Publications (Peer-reviewed)

Conference Papers

- S. Espinosa, A. Kaya, S. Melzer, R. Möller and M. Wessel. Towards a Media Interpretation Framework for the Semantic Web. *In Proceedings of the IEEE/WIC/ACM International Conference on Web Intelligence (WI'07)*, number 4919 in Lecture Notes in Computer Science, pages 374-380, Washington, DC, USA, November 2007.

Workshop Papers
